Predictive Services Discussion

Mixed wet and dry thunderstorms are possible in eastern Oregon, the northern Great Basin, western Montana and western Wyoming today. Wetter thunderstorms are expected further south over the southern Great Basin into the Southwest. Thunderstorms will moisten and move east through the weekend. Cooler and windy weather will move from west to east today through the weekend, with greatest impact over Montana, Idaho and the Pacific Northwest. Warmer and drier weather will return early next week as a high pressure ridge builds.
